Weak Hearts

Are due to indigestion. Ninety-sine of every one hundred people who have heart trouble can remember when it was strople indigestion. It is a scientific fact that all cases of heart disease, not organic, are not only traceable to, but are the direct result of indigestion. All food taken into the stamach which fails of perfect digestion ferments and eveils the stomach, putting it up against the heart. This interferes with the solient of the heart, and in the course of time that failcate hut wital organ becomes diseased.
